

MODERATE PORTFOLIO - HIGH PERFORMANCE

MARCH 31 2021

PORTFOLIO MANAGER: IVAN SCHERMAN PhD, CMT, CFTe®
FINRA SERIES 86

EMERGEFUNDS
INVESTMENTS

OBJECTIVE

The portfolio aims to achieve a net return of 15% to 20% per year, for the client.

STRATEGY

To do so, we implement an active management strategy of a 100% algorithmic absolute return fund, with diversification of financial instruments under rigorous risk control.

FEES

Fees are charged exclusively from the earnings generated but never from the initial capital or from the earnings already integrated. Losses incurred during a quarter will be recovered before charging commissions again. Fees are 50% of the quarterly result.

There are no administrative fees for opening, closing or maintaining an account or issuing summaries. Emerge Funds does not charge an annual fee on the managed capital.

PORTFOLIO NET PERFORMANCE

Average annual return since inception (US Markets)	19.87%
